

CHILDCARE

When you begin hosting or engaging with a new Group, childcare can be a concern.

We believe in finding creative solutions to take inventory of the Group members' resources to find healthy ways to share them with one another.

- Does anyone in your group have a middle school or high school age kid that can play with the little ones?
- Is your group comprised of a lot of young families? Is there a babysitter who you could collectively pay that can watch the young kids in another part of the house?

These are by no means the only two options, but we hope they will help you get ideas flowing.

The most important thing your group can do is
MAKE A PLAN!
